

Maximize Workplace Safety With Our AI-Powered Real-Time People Counting Solution.

Trusted by Professionals Since 1989

ELIDEye Crowd Management System

EV-100-PC is a people counting device based on AI-powered video analytics. It deploys state-of-the-art deep learning algorithms to accurately detect and track people in the video stream acquired using its built-in camera. By doing so, it can reliably determine the number of people entering and exiting a room. Its purpose is to control the allowed occupancy within a specific area and therefore, it is the ideal solution for companies that need to comply with COVID-19 SOP.

WE MAKE YOUR WORLD SECURE 🔑

Features & Benefits

1 Real-time counting for number of entering/exiting

2 Multiple entrance & exit points
